

AIX

Yacht Type: **Motor** • Architect: **Zuccon International Project**

Length: 44.5m • Year Built: **2022** • Cabins: 5 • Guest Capacity: 10

Description

Introduced to the world in July 2022, AIX is a 44.50-metre Sanlorenzo motor yacht of rare sophistication — the sixth hull of the celebrated Alloy series, and a vessel that sets an entirely new benchmark for charter in Australia and the South Pacific. Her sweeping exterior lines and refined interiors bear the unmistakable signature of Zuccon International Project, while Sanlorenzo's naval architecture delivers a performance as assured as her appearance, with a top speed of 23 knots and a cruising speed of 11 knots across a substantial 485 GT volume.

Built for the most discerning of owners and now available for charter, AIX arrives as the newest and most technologically advanced yacht of her kind in the region — a distinction she carries effortlessly.

She welcomes up to ten guests across five beautifully appointed cabins, with accommodation for twelve available on application. At the heart of the guest experience lies the owner's cabin — an extraordinary private apartment spanning 147 square metres across three levels, seamlessly blending indoor and outdoor living with direct access to the foredeck pool. It is a space that must be seen to be believed.
